ECharts Gallery

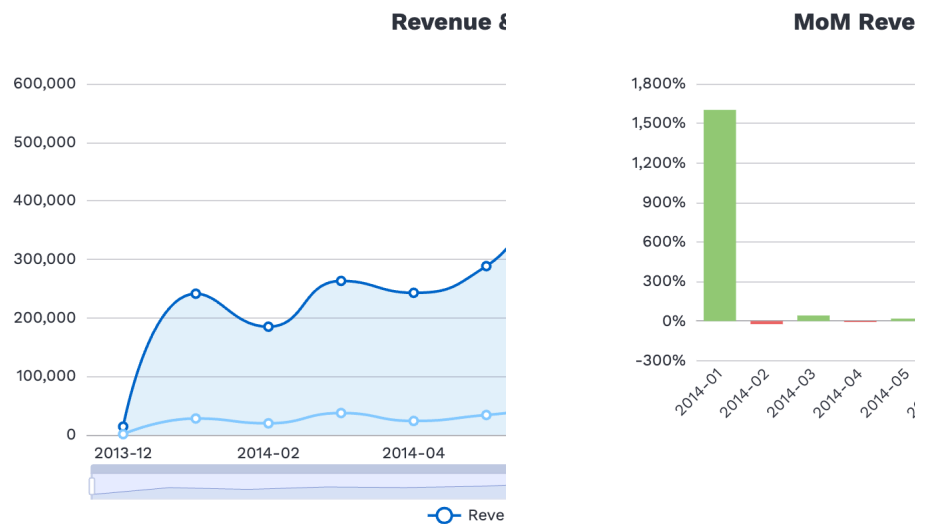

This dashboard is a showcase of **streamlit-echarts**, demonstrating how to integrate highly interactive ECharts visualizations into Streamlit apps using real-world enterprise data.

Analysis period: 2011-01-01 to 2014-12-31

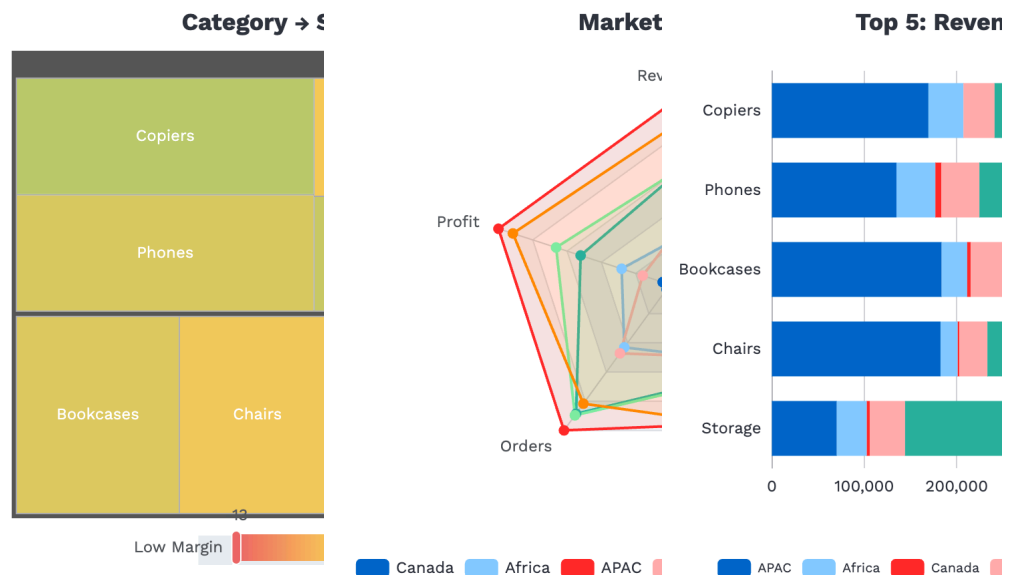

How are we trending?

Track revenue and profit over time with smart aggregation, and spot month-over-month momentum shifts.

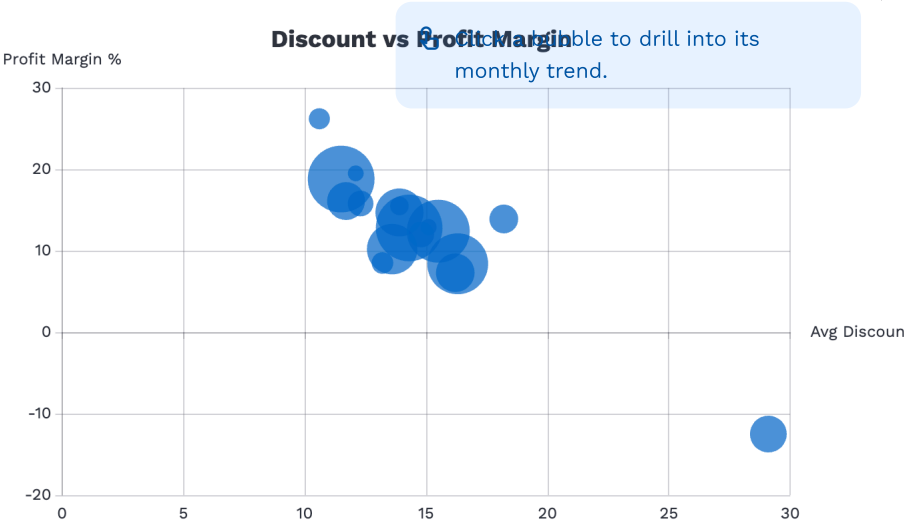

Where & What?

Break down performance by category, market, and product to see where revenue and margins concentrate.

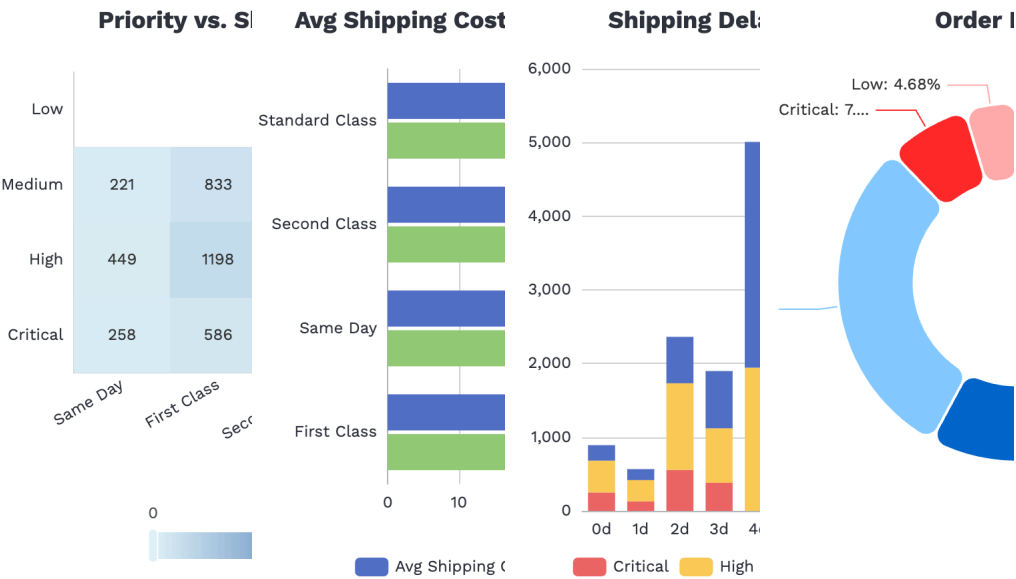

🔗 Deep Dive — Click to Explore

Uses `@st.fragment` + `on_select` for cross-chart interactivity. Clicking a bubble re-renders only this section, not the full page.

⚙️ Operational Insights

Examine shipping patterns, fulfillment speed, and order priority distribution.
